EDUCATION

Mysuru Royal Institute Of Technology
B.E. in Information Science and Engineering

2023 – Present
Mandya, Karnataka

PROJECTS

DeployMate – Secure Web Hosting Platform | FastAPI, PostgreSQL, React

Sep 2025

- Designed and developed a full-stack web hosting platform enabling one-click static website deployment.
- Implemented JWT-based authentication, bcrypt password hashing, and role-based access control.
- Built RESTful APIs using FastAPI and integrated PostgreSQL with SQLAlchemy ORM.
- Developed a responsive React frontend with protected routing and secure session handling.

KrishiVaani – Smart Farming Assistant | React, Flask, MongoDB, Chart.js

May 2025

- Developed a voice-first agricultural advisory platform providing crop recommendations and disease detection.
- Integrated multilingual speech-to-text and text-to-speech (Kannada and English).
- Designed interactive dashboards using Chart.js for real-time analytics visualization.
- Built scalable REST APIs using Flask and MongoDB.

Prompt2Game – AI-Powered Game Generator | React, Node.js, WebSockets

Feb 2025

- Engineered a system that converts natural language prompts into playable web-based games.
- Built a Node.js backend to dynamically generate game logic and structured JSON assets.
- Implemented WebSocket-based real-time rendering and state synchronization.
- Developed a React frontend with animations, physics handling, and interactive gameplay.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, C

Frontend: React, Tailwind CSS

Backend: FastAPI, Flask, Node.js, Express

Databases: PostgreSQL, MongoDB, Firebase

Tools: Git, GitHub, VS Code

ACHIEVEMENTS

- 1st Runner-up – CodeVault 2025 (AI/ML Hackathon)
- 1st Runner-up – Mrithon 2025 (Smart City Hackathon)
- 2nd Runner-up – Srishti Hackathon 2025 (National-Level Voice Innovation Hackathon)

CERTIFICATIONS

- The Complete Full-Stack Web Development Bootcamp – Udemy
- Responsive Web Design – freeCodeCamp
- Career Essentials in Generative AI – Microsoft & LinkedIn
